Henrik Rolland Vågseth

Developer · Bachelor's in Information Science (UiB)

Bergen, Norway · henvagrolland@gmail.com
henvag.github.io · github.com/Henvag · linkedin.com/in/henvagdev

Developer with a bachelor's in Information Science from the University of Bergen. I like taking a project all the way, from the data model to the deploy. My latest is Tenant Access, a single sign-on service for small companies with its own OpenID Connect provider and tenant isolation enforced in PostgreSQL. Before university I trained in electronics and IT and worked hands-on with computer repair and IT support.

Projects

Sep 2026 – present

Tenant Access · tenantaccess.me

Single sign-on and an access overview for small companies that run their own tools, like Grafana and Outline. Solo project, live with a read-only demo anyone can open.

- Built the OpenID Connect provider that Grafana and Outline sign in through. People sign in with Google or Microsoft and are matched to their company by verified email domain, with the nOAuth account takeover closed.
- Isolated tenants with forced row-level security in PostgreSQL. The app runs as a restricted database role and refuses to start if it could bypass the policies.
- Per-app access rules, an audit log with CSV export, signed webhooks that refuse internal addresses, Stripe billing and an interface in English and Norwegian.
- Over 100 backend tests run in GitHub Actions against a real PostgreSQL, next to the frontend and Docker builds.

Python, FastAPI, SQLAlchemy, PostgreSQL, React, TypeScript, Docker, Render, Neon, Cloudflare

PulseType · pulsetype.onrender.com

Typing-speed test with user accounts, Google and GitHub sign-in and a leaderboard stored in PostgreSQL. Shipped as an MVP on Render and improved from there.

Node.js, Express, PostgreSQL

Mushroom classifier · mushroomproject.app

Upload a photo and get edible or poisonous back, with a species guide. Prepared the dataset and trained and evaluated the image model in Roboflow, served through a Flask API to a React frontend. University course project.

React, Flask, Roboflow

WitchCraft · github.com/Henvag/WitchCraft

Play The Witcher 3 as a Minecraft character. A C++ host bridges the two games.

C++, Java, Python

Experience

Jun 2022 – present

Developer and owner · Teknologihjelpen (sole proprietorship)

My own company, which Tenant Access runs under. Before Tenant Access it offered IT help to private customers in Sunnfjord: setup, troubleshooting and repairs.

Sep 2026 – present

Ads Quality Rater, part-time · TELUS Digital

Remote work rating online ads for relevance and quality against detailed guidelines.

Mar 2025

Externship · Avo Consulting, through Sammen

Two days shadowing consultants: joined their meetings and solved a case assignment.

Sep 2022 – Aug 2023	**Administrative soldier, national service** · Royal Norwegian Navy, Haakonsvern One year of administrative service at Haakonsvern naval base. Reference letter available.
Oct 2020 – Dec 2020	**IT assistant, work placement** · SYSIKT Repaired equipment, wiped disks, installed operating systems over the network and prepared computers for schools across Sogn og Fjordane.
Sep 2017 – May 2018	**IT workshop assistant** · Kontorsenteret AS Repaired electronics, fixed firmware and software problems and prepared computers for customers, with plenty of customer contact.

Education

Aug 2023 – Jun 2026	**Bachelor's in Information Science** · University of Bergen
Aug 2021 – Jun 2022	**Supplementary year for university admission** · Hafstad Upper Secondary School
Aug 2019 – Jun 2021	**Electrical and Computer Technology, vocational** · Mo og Øyrane Upper Secondary School Electronics, networking, smart-home systems, servers, telephony and programming.

Skills

Programming	Python, TypeScript, JavaScript, SQL, C++
Backend and data	FastAPI, SQLAlchemy, Flask, Node.js, Express, PostgreSQL
Frontend	React, HTML, CSS
Security	OpenID Connect, OAuth 2.0, PostgreSQL row-level security
Infrastructure	Docker, GitHub Actions, Linux, Render, Neon, Cloudflare
AI tools	Claude Code, Cursor, GitHub Copilot
Hardware	PC repair, networking, Raspberry Pi, Arduino
Languages	Norwegian (native), English (fluent)
Driving licence	Class B
