Henrik Rolland Vågseth

Full-stack developer · Python, React, PostgreSQL

Bergen, Norway · henvagrolland@gmail.com
henvag.github.io · github.com/Henvag · linkedin.com/in/henvagdev

Information Science student at the University of Bergen, finishing my bachelor's this autumn. I came to software through hardware: electronics at upper secondary school, then computer repair and IT support. I build web apps end to end, from database design to deployment, and like taking a project all the way to production.

Education

Bachelor's in Information Science · University of Bergen — Aug 2023 – Dec 2026
Programming, data handling, systems development, artificial intelligence and human-computer interaction.

Supplementary year for university admission · Hafstad Upper Secondary School — Aug 2021 – Jun 2022

Electrical and Computer Technology, vocational · Mo og Øyrane Upper Secondary School — Aug 2019 – Jun 2021

Projects

Tenant Access, solo side project · tenantaccess.me — Sep 2026 – present

- Single sign-on for small companies: staff log in once with Google or Microsoft and access tools such as Grafana and Outline through my own OpenID Connect (OIDC) provider.
- Isolates each company's data in PostgreSQL using row-level security (RLS), with a fail-closed startup check I added after catching a bypass in my own deployment.
- 110 automated tests run in CI (GitHub Actions) on every push. Live, with a demo anyone can open.

Python, FastAPI, SQLAlchemy, PostgreSQL, React, TypeScript, Docker, Stripe

PulseType, typing-speed test · pulsetype.onrender.com
Google and GitHub sign-in and a PostgreSQL leaderboard, shipped as an MVP on Render. Node.js, Express, PostgreSQL

Mushroom classifier, university project, team of two · mushroomproject.app
Photo in, edible or poisonous out. I worked on training and evaluating the image model in Roboflow. React, Flask, Roboflow

WitchCraft, game mod · github.com/Henvag/WitchCraft
Play The Witcher 3 as a Minecraft character. A C++ host bridges the two games. C++, Java, Python

Experience

Owner, part-time · Teknologihjelpen, sole proprietorship — Jun 2022 – present
IT help for private customers in western Norway. Also the company behind Tenant Access.

Ads Quality Rater, part-time and remote · TELUS Digital — Sep 2026 – present

Externship · Avo Consulting, through Sammen — Mar 2025

Administrative soldier, national service · Royal Norwegian Navy, Haakonsvern — Sep 2022 – Aug 2023
One year at Haakonsvern naval base. Reference letter available.

IT assistant, work placement · SYSIKT — Oct 2020 – Dec 2020
Repaired equipment, installed operating systems over the network and prepared computers for schools.

IT workshop assistant · Kontorsenteret AS — Sep 2017 – May 2018
Repaired electronics and set up computers, with daily customer contact.

Skills

Programming	Python, TypeScript, JavaScript, SQL, HTML, CSS, C++
Frameworks	FastAPI, SQLAlchemy, React, Flask, Node.js, Express
Data and DevOps	PostgreSQL, Docker, GitHub Actions (CI/CD), Linux, Render, Neon, Cloudflare
Security	OpenID Connect (OIDC), OAuth 2.0, row-level security (RLS)
AI tools	Claude Code, Cursor, GitHub Copilot
Languages	Norwegian (native), English (fluent)
Driving licence	Class B
